

Finding perimeters and areas of 2D shapes

square

perimeter

$$l + l + w + w$$

or

$$2l + 2w$$

area

$$l \times w$$

rectangle

perimeter

$$l + l + w + w$$

or

$$2l + 2w$$

area

$$l \times w$$

triangle

perimeter

$$a + b + c$$

area

$$\frac{1}{2} \times (b \times h)$$

parallelogram

perimeter

$$a + a + b + b$$

or

$$2a + 2b$$

area

$$b \times h$$
