

Now solve these problems.

Each player loses 50 points when they land on a penalty in a computer game. Work out their scores now if their scores before getting the penalty were:

4

Sam, 268

6

Jack, 24

8

Ayesha, 31

5

Sarah, 314

7

Min, 18

9

Kryisia, 49

- 10 The daytime temperature in Denver is 25°C . It drops to -4°C at night. What is the difference between these two temperatures?

What realistic temperatures could London have during a summer's day if the minimum and maximum temperatures during a 24-hour period have a difference of 10°C ?

I am confident with reading, writing and ordering negative numbers.
