

Whitechapel Primary School

Year: Reception		Topic: Animal Adventure	Term: Summer 1
Key vocabulary		Sticky knowledge	Book links
Animal	A living creature that moves, eats, and grows.	➤ Animals are living creatures that need food, water, and shelter. ➤ Different animals have different habitats, like forests, oceans, and farms. ➤ Mammals feed their babies with milk and usually have hair or fur. ➤ Birds have feathers and most can fly. ➤ Fish live in water and have gills to breathe. ➤ Amphibians can live in water and on land. ➤ Reptiles have scales and are cold-blooded. ➤ Insects and minibeasts are small animals with important roles in nature. ➤ Animals can be carnivores, herbivores, or omnivores. ➤ Some animals are nocturnal and are active at night. ➤ Predators hunt prey for food.	Dear Zoo by Rod Campbell
Insect	A small animal with six legs, like ants or butterflies.		The Very Hungry Caterpillar by Eric Carle
Minibeast	Small creatures like worms, snails, or spiders.		Mad About Minibeasts by Giles Andreae
Habitat	The place where an animal lives.		We're going on a Minibeast Hunt
Carnivore	An animal that eats other animals.		National Geographic Kids: Animal Encyclopedia
Herbivore	An animal that eats plants.		Non-fiction books about different animals and their habitats
Omnivore	An animal that eats both plants and animals.		
Predator	An animal that hunts other animals for food.
